WINCHESTER, Va.--(BUSINESS WIRE)--February 23, 2016--Trex Company, Inc. (NYSE:TREX), the world's number-one brand of decking & railing and leader in high-performance, low-maintenance outdoor living products, today announced financial results for the fourth quarter and full year ended December 31, 2015.

Fourth Quarter 2015 Results

Net sales for the fourth quarter of 2015 were \$89 million, 20% above the \$74 million reported for the comparable period in 2014. The Company reported net income of \$8.1 million, or \$0.26 per diluted share, up 57% and 63%, respectively, from the net income of \$5.2 million, or \$0.16 per diluted share, reported in last year's fourth quarter.

President and CEO James E. Cline commented, "Our fourth quarter results represented a strong finish to 2015. Year-over-year net sales growth of 20% was slightly ahead of our guidance, thanks to unseasonably good weather and positive momentum going into the 2016 "Early Buy" season. Additionally, we continued to generate operating leverage by maintaining our gross margin at close to 36% and reducing our SG&A expenditures as a percentage of revenues by 170 basis points to 21%, after excluding 2014 expenses of \$1.1 million related to our Dulles lease and a terminated transaction."

Full Year 2015 Results

For the full year 2015, net sales were \$441 million, a 13% increase compared to prior year net sales of \$392 million. Gross margin was 35.1%, a 70 basis point decrease from prior year; before giving effect to 2015 warranty charges of \$7.8 million, primarily related to surface flaking, gross margin was 36.9% up from 35.8% in the prior year. The Company reported net income of \$48.1 million, or \$1.52 per diluted share, increases of 16% and 20%, respectively, from the net income of \$41.5 million, or \$1.27 per diluted share reported for 2014. Exclusive of warranty reserve charges net of tax, net income was \$53.0 million, or \$1.67 per diluted share.

Mr. Cline commented, “We achieved record net sales for 2015, posting year-over-year growth that substantially outpaced the industry, as we continued to successfully execute our market share expansion strategy. Throughout the year, we experienced increasing acceptance of our “good, better, best Decking & Railing” product lineup and greater consumer recognition of the opportunity to design customized outdoor living spaces with long-lasting Trex products. At the same time, we maintained our pricing discipline and implemented operating efficiencies that enabled us to expand our gross margin by 110 basis points, before giving effect to the warranty charges noted above.

“In addition to solid operating and financial performance in 2015, Trex ended the year in a strong financial position, with net debt of \$1 million at December 31, 2015. Full year 2015 free cash flow was \$39 million, which was the primary source of funds used for the \$45 million of capital returned to shareholders through share repurchases. In January 2016, we completed a debt refinancing that increased our borrowing capacity by \$100 million, positioning us to accelerate our share repurchase strategy and optimize our capital structure, as well as to take advantage of strategic growth opportunities.”

Summary and Outlook

Mr. Cline continued, “We are pleased with our strong momentum in 2015, and enthusiastic about our prospects for further expanding our industry-leading market share in 2016. Beginning in the second quarter, a substantial portion of our media budget will target conversion from wood decking, which represents approximately 84% of the decking lineal feet sold in North America, to Trex. Trex will launch a multi-year campaign to gain share from this largest single source in the decking category. Also, we will continue to implement meaningful cost reduction initiatives that we expect to move the needle on gross margin.

“For the first quarter of 2016, we expect net sales of \$131 million, representing 8% growth over first quarter 2015 levels. In addition, we expect our average incremental margin to reach 50% in 2016, above the 45% guidance that we provided for 2015.

“Full year 2016 capital spending is projected to be \$25 million to support anticipated revenue growth and drive gross margin improvement.”
